EXPLANATION

All families are numbered on the left hand side of the word generation, which are the serial numbers. The numbers on the right hand side refer you back to their parents serial number. All children that are married have numbers following their names which refer you forward to their own family. Thus it enables you to trace a family either way.

THE MASS

INTRODUCTION

Genealogies and family registers have been an interesting subject for ages, and form an important part of our sacred Scriptures. Due to conscientious scruples, there are some that are declined to furnish information of their families, because of Paul's statement in Titus 3:9 and I Tim. 1:4. The reader may know that everything that is good and right of itself can however be misused. In early ages as well as now there might be such that possibly took pride of themselves because of being descendants of some noted person. May be from such misuse Paul saw fit to warn Titus and Timothy.

We are commanded to honor our father and mother and it does not seem to be out of place to go a little farther and honor and cherish our forefathers and friends yet living.

A man can rest assured that he will no doubt have a tendency to inherit the physical or mental traits, good or bad, of his ancestors. Knowing the facts and truth about his ancestors will put him in better position to resist the evil traits. We will remember a well known saying, "The best way to train a child, is to begin to train his grandfather." When a man has a fair knowledge of himself and his ancestry, he is in better position to do his duty to himself and his family.

It would have been far more satisfactory to the author as well as to whoever is interested in this family record, had we been able to trace our ancestry farther back than we have, but due to the strange practice of some of our forefathers in separating their children while still quite small and giving them to other people to take care of, so that they grew up in different communities, it is naturally a big task to get any trace of them any more. In some instances, they didn't see each other for thirty years or more.

In this "Family Record of John and Elizabeth Sumy" the author has tried as nearly as possible, to give all their descendants, dates of birth and death, to whom they were married and their religious affiliations and occupations.

There are some dates that I didn't know and couldn't seem to get, as well as the address and religious affiliations of some.

There will probably be other mistakes which were made either by the printer or by myself in copying the data from the many different papers and records from which this record was compiled.

My apologies for any mistakes. They were not intentional.

The author returns his sincere thanks to all who have aided him in this work, all those that sent in their records and helped to get the records of others. I wish especially to make honorable mention of the following for their help, namely: Perry Summy, Mrs. Emma Sisk, Mrs. M. G. Stauffer, Mrs. LeRoy Moore and Harry E. Sumy.

Yours respectfully,

JOHN A. SUMMY
